

The Range Rider

WHO'S WHO AMONG SCS TRANSFEREES

In the September 27th issue of The Range Rider, Director Rutledge, speaking for all of us old-time graziers and grazierettes, welcomed the transferees from the Soil Conservation Service into the Grazing Service family. All of the field transfers are now consummated and so we want to extend a welcoming hand to each new grazier and grazierette!

Hello,

Myron Allen	Norman Carlson
Zora Aldrete	John Cholis
Dick Angle	O'Dell Child
James Armstrong	Eima Connell
Leland Allen	Robert Copple
William Anderson	Charles Dean
Everett Bingham	William Danley
Louis Brichta	Gerald Dinneen
Dana Bergthuis	Wilma Drake
Fred Benson	Helen Dearinger
Herman Blaser	Charles Davidson
Ralph Baird	Lon Danley, Jr.
Dorothea Butler	Jeremiah Driscoll
Rex Bryce	Ray Dunham
Thomas Bretherton	Clarence Davis
Earl Brown	Lon B. Faver
Vernon Chesley	Ira Elmer Fields
Jess Carter	Lucy Fischer
Amy Casey	Evert Guy
Anita Contreras	Fay Griswold
Charles Combs	Jack Giles
Wilson Charles	Vincent Gonzales
William Colt	Arthur Hutchinson
James Caldwell	Donald Harbison
Reagan Carter	Gertha Hill
Charles Cortwright	
Mike Chaves	

Charles Heineman	Marion Nelson
Charles Hager	Barney Nichols
Emily Hunt	
Winifield Haulman	Robert Owens
Joseph Hammon	Bernard Otness
Elof Jensen	Thomas Parmelee
Viola Jones	Ray Penn
Harry Jones	Robert Prentiss
	Ralph Phillips
William Kieffer	Robert Powell
Wayne Kessler	John Pearmain
Ray Kerr	Anthony Petranovich
Pete Kezele	
George Kincaid	Ben Roseberry
Randolph Kissling	John Ruttinger
	Ivan Rowe
Paul Lister	Henry Rudder, Jr.
George Lowery	Samuel Rathvon
Glenn Langley	Vincent Redd
Mark Lawrence	
Bill LaPine	Samuel Strebin
Wayne Lafferty	William Sherman
Arvel Lovell	Verl Seyfried
	Kenneth Searle
Frances Miller	Dean W. Sachs
Jesse Mann	Benjamin Stevens
Idella McFarland	William Sweet
William Muller	Francis Scott
Roy McKinnon	Carl Simpier
Agnes Mansing	Jack Saunders
Roy Miller	William Saunders
James Mobley	Joseph Snyder
Wallace Miller	Felix Sanchez
Lionel Miller	Edward Schmahl
Lowell Morris	George Scott
Russell Miller	
Hall McClain	Morris Trogstad
Ronald Moshier	Richard Tracy
Norris Mathey	Frank Talbot
	Harold Tysk
	Leonard Thompson
Dorothy Williams	
Barbara Wright	
James Webb	
Atwell Wallace	
Thelma Wynn	
John Wesley	
Ornal Wilkerson	
Charles Wing	
Grant Wilson	
Virginia Wroe	
Harry Younkmam	

YES, DEER!

In cooperation with the Utah State Fish and Game Department, the Grazing Service established some 25 deer-checking stations in Utah during the deer season, from October 19 to 29. Most of the stations were located on ports of entry to hunting grounds in the Bonneville and Pahvant Districts. Fifty enrollees from camp G-26 and G-155 were stationed at the checking stations—two at each station. The enrollees checked the hunters in and out of the hunting grounds and the business-like and courteous manner in which they did their work received favorable comment from the sportsmen and the Fish and Game Department officials. Some 8,272 hunters were checked in at these stations and 4,113 bucks and 3,554 does were checked out which seems to indicate that something like 600 hunters were disappointed.

Checking stations have been established in many other regions and reports filtering into the Washington office are to the effect that all functioned equally well and met with complete approval of sportsmen and wildlife officials.

NEW MEXICO STATE COLLEGE FIELD DAY

Mr. Lon Merchant, Chairman of the Pecos Grazing District advisory board, addressed the New Mexico State College Field Day gathering on October 14 and 15, on the "Necessity of Good Range Management Practices if a Profitable Ranch Operation is to be Realized." The Field Day was sponsored by the State College Extension Service.

Stockmen were given an opportunity at the field day meetings to see what the Extension Service is doing on its experimental ranch. They saw (1) results of experiments of different degrees of stocking on similar pastures, (2) the effect of rodent damage, (3) results of soil conservation structures, (4) results of artificial reseeding, (5) effect of feeding mineralized salt to stock, and (6) judging of range bulls.

MOVING DAY

November 9 was moving day for the Oregon regional office. The following Tuesday found them comfortably established in the new Federal Building at Burns, Oregon. A fine set of offices on the second floor, reached by stairs or elevator, well-arranged and well-lighted, will enable the Oregon members of the Grazing Service family to do even better work in putting their region on the map. They now have storage space in the basement, a council room in the attic—in fact all of the necessities and some of the luxuries, or what seem like luxuries to the Oregon gang after working so long in cramped quarters.

Congratulations, Oregon! The traveling WO officials promise to be duly respectful when they come to call!

THE GS ON PARADE

Camp G-133, Arizona, participated in an Armistice Day Parade which was sponsored by the American Legion Post of Kingman and other local organizations.

Under direction of the Company Commander, Col. R. C. Kenney, and Project Superintendent Merle B. Quimby, the camp constructed and displayed floats depicting post-cutting projects, fence construction, fire-fighting, and other activities. Approximately 125 enrollees took part in the parade.

OLD OIL

In cooperation with Malheur County and the Bureau of Entomology, all Grazing Service CCC camps in Oregon's Jordan District (No. 4) are working on a plan to save old crank-case oil which will be transported to the district headquarters for use in the battle against Mormon crickets.

OUR MISTAKES

Mr. R. F. Jameson (not Johnson), superintendent of Camp G-122, Nevada, contributed the article about water development in the Searchlight District which was printed in the November 8 issue of the Range Rider.

Our typewriter must have been slipping that day because we referred to New Mexico's Pecos District as No. 7. It is, of course, No. 6.
